WHEREAS, the RECIPIENT intends to become the legal parents of a child conceived from a reproductive procedure with the use of PACIFIC directed donor sperm; and

WHEREAS, PACIFIC is duly licensed and qualified to perform the cryopreservation and banking of human spermatozoa, as well as reproductive procedures; and

WHEREAS, the PARTIES hereto intend to fully protect each other and any child(ren) conceived from using the donor's sperm;

NOW, THEREFORE, in consideration of the promises of each other and for value received, the PARTIES acknowledge and agree as follows:

### AGREEMENT

1. PACIFIC represents that the sperm Donor has previously signed a written agreement containing the following provisions:
  - a. That under the provisions of California Family Code section 7613(b), he is providing his semen to a medical facility supervised by a licensed physician for use in the artificial insemination of a woman who is not his wife, and that, as such, he will be treated in law as if he were not the natural father of a child thereby conceived
  - b. That he will have no rights or obligations with respect to either the Recipient of his semen or her Partner or Spouse or any children conceived as a result of artificial insemination with the use of his semen
  - c. That, by providing his semen for use in artificial insemination, he will have no right in law to demand, request or compel any guardianship, visitation, or custody right with any child conceived as a result of any artificial insemination using his semen.
2. RECIPIENT acknowledges and agrees that she has discussed the objective and method of the reproductive procedure to be performed with a health care practitioner of PACIFIC or with their own health care practitioner. RECIPIENT further acknowledges that she has had an opportunity to pose any medical questions she might have in connection with the services to be provided to her personally and with respect to the reproductive procedure in general.
3. RECIPIENT acknowledges and agrees that she has personally spoken with a representative at PACIFIC, and truthfully set forth her reasons for choosing to participate in a reproductive procedure, using sperm donated by a PACIFIC directed donor.
4. RECIPIENT represents that she has provided a complete and accurate medical history to her clinician, and understands that they have relied upon this information in advising RECIPIENT pursuant to paragraph two above.
5. RECIPIENT further represents and understands that she has undergone a pre-pregnancy consultation, as required by PACIFIC and that PACIFIC has relied upon the information obtained in the resulting Medical Certification, duly executed by her clinician in advising RECIPIENT pursuant to paragraph two above.
6. PACIFIC acknowledges that they have performed a complete and thorough screening of the donor(s) for inheritable birth defects, inheritable serious illnesses that could be fatal, life threatening, or could result in permanent impairment of a body function or permanent damage to a body structure and for infectious diseases and, further, that they have found no evidence of such inheritable birth defects, serious illness or infectious diseases in the donor(s) whose semen will be used in the RECIPIENT'S reproductive procedure, unless specified on a separate waiver agreement, describing any such condition.
7. RECIPIENT acknowledges and agrees that, in accordance with New York state regulations, PACIFIC has notified her that her PACIFIC directed donor may have had more than one sexual partner within the last 6 months.

8. RECIPIENT acknowledges and agrees that she understands the medical tests performed in the screening of donors are not always one-hundred percent accurate. RECIPIENT further acknowledges and agrees that she understand that it is not possible to pre-test a donor for each and every disease, illness, condition or birth defect that may potentially affect the health of the child born as a result of using the donor's sperm.
9. RECIPIENT further acknowledges and agrees that PACIFIC has made available and RECIPIENT has had an opportunity to review the pertinent personal and family medical history of the donor whose sperm she plans to use in a reproductive procedure and she understands by such disclosure any related risks that may potentially affect the health of the child born as a result of using the donor's sperm.
